OUR QUALITY POLICY

Depending on the quality policy, mission and vision of our university, our Vocational School is based on "quality-oriented" work in all its activities.

In accordance with this purpose;

- ✓ To move our school to a pioneering and leading position in education and research,
- ✓ To ensure the satisfaction of all stakeholders, especially our students and employees,
- ✓ To guide the effective use of resources, sustainability and continuous improvement, to support and disseminate entrepreneurship and innovation,
- ✓ Carrying out our activities in accordance with international education standards and relevant legal regulations constitutes our Quality policy.

To ensure that the basic principles of Total Quality Management are adopted and implemented as a philosophy of life in our University,

To create a working environment that ensures employee health and safety, and where innovative and creative approaches will flourish,

To continuously increase the efficiency in all our processes by using all kinds of resources effectively,

To be a pioneer in its field, designing the future, adopting universal values and complying with international standards.
